Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • When are EVs charging the most? • Which areas need more charging stations? • I need accurate data to manage electricity demand.		THINKS • Peak charging hours may overload the power grid. • EV adoption will increase electricity demand. • Data-driven planning improves infrastructure.
DOES • Monitors EV charging data. • Analyzes charging trends using Tableau dashboards. • Plans new charging stations based on demand.	PERSONA NAME <i>City Energy Planner</i>	FEELS • Concerned about grid stability. • Confident with real-time analytics. • Motivated to build a sustainable EV ecosystem..
