Project Name	EV Data Analytics & Visualization Dashboard
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Open EV Analytics Dashboard • Select city/region and date • Load EV charging and battery dataset	• System validates EV data • Tableau processes and analyzes the data • Generates interactive dashboards	• System validates EV data • Tableau processes and analyzes the data • Generates interactive dashboards
Touchpoint <i>What part of the service do they interact with?</i>	• Home Page • Dashboard Filters • Data Upload Page	• Data Validation Screen • Tableau Dashboard	• Analytics Dashboard • Reports & Insights
Customer Thought <i>What is the customer thinking?</i>	• When are EVs charging the most? • Which areas require more charging stations? • I hope the analytics are accurate.	• The dashboard is processing EV data. • I'm waiting for the insights.	• Now I understand EV charging patterns. • These insights help improve planning.

Customer Feeling <i>What is the customer feeling?</i>	Curious, interested, optimistic	Confident, engaged	Satisfied, informed, confident
Process Ownership <i>Who is in the lead on this?</i>	City Energy Planner	EV Analytics System (Tableau)	City Energy Planner & Tableau Dashboard
Opportunities	• Add multilingual support • Add live EV charging data • Improve dashboard UI	• Faster dashboard refresh • Advanced filters • Predict peak charging demand	• Export reports to PDF • Battery health prediction • AI-powered recommendations
