

Technology Stack

Date	10 july 2026
Team ID	xxxxxx
Project Name	EV Data Analytics & Visualization Dashboard
Maximum Marks	2 Marks

Define Your Technology Stack:

Identify the programming languages, frameworks, databases, front-end tools, back-end tools, and APIs that you will use to build your solution. A well-chosen technology stack ensures that your application is scalable, maintainable, and aligned with your project requirements.

Fill out the table below to detail the specific technologies chosen for each component of your architecture and provide a brief justification for your choice.

Technology Stack Details

S.No	Architecture Component / Layer	Technology Chosen	Justification / Purpose
1	Frontend / Client-Side	HTML, CSS, Bootstrap	Develop a responsive web interface to display embedded Tableau dashboards.

2	Backend / Server-Side	Flask (Python)	Connect the database, serve web pages, and embed Tableau dashboards.
3	Database / Data Storage	MySQL	Store EV charging, battery, and vehicle data for analysis.
4	Cloud / Hosting / Deployment	Tableau Public + Render	Publish Tableau dashboards and deploy the Flask application.
5	Version Control & CI/CD	Git, GitHub	Manage source code, enable collaboration, and maintain version history.
6	Business Intelligence / Visualization	Tableau Desktop, Tableau Public	Create interactive dashboards, stories, filters, KPIs, and visual analytics.
