

Problem-Solution Fit

Date	10 july 2026
Team ID	xxxxxx
Project Name	EV Data Analytics & Visualization Dashboard
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviors, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] - City Energy Planners - EV Fleet Managers - EV Owners / Customers - Government Transport Departments - EV Charging Station Operators	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] - Limited technical knowledge - Budget constraints - Internet connectivity issues - Lack of AI tools	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Existing Solutions - EV Manufacturer Apps - Charging Station Platforms - Excel Reports Pros - Reliable - Scientific Cons - Time consuming - Manual process - Limited accessibility
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] - Difficulty identifying peak EV charging demand. - Lack of centralized EV charging analytics.	9. PROBLEM ROOT / CAUSE [RC] - Difficulty identifying charging trends. - Limited decision-support tools.	7. BEHAVIOR + ITS INTENSITY [BE] - Monitors EV charging data regularly. - Downloads reports from multiple sources.

• Difficulty monitoring battery health and driving range. • Limited comparison of EV models and charging costs. • Increasing electricity demand due to EV adoption		• Compares battery performance manually. • Uses spreadsheets for analysis. • Makes decisions based on incomplete information.
3. TRIGGERS TO ACT [TR] • Rapid increase in EV adoption. • Need for efficient charging infrastructure. • Requirement for battery performance monitoring. • Demand for data-driven decision making. 4. EMOTIONS BEFORE / AFTER [EM] Before • Confused • Worried • Uncertain After • Confident • Well-informed • Better planning • Improved decision making	10. YOUR SOLUTION [SL] integrates: • EV Charging Dataset • Battery Performance Data • Vehicle Information • MySQL Database • Tableau Interactive Dashboards • KPI & Calculated Metrics • Dashboard Filters & Reports • Flask Web Integration	8. CHANNELS OF BEHAVIOR [CH] ONLINE • EV Analytics Dashboard • Tableau Dashboard • Flask Web Application • Government EV Portals OFFLINE • EV Charging Stations Transport Department • Fleet Management Office • Energy Planning Department
